

Explore new places

Press Release

This summer, start Gamping !

Based on joint savings, Gamping is a community website that offers land on private property to campers in France and all around the world.

Our Gampers seek out new life experiences in the heart of the outdoors and in new surroundings for a weekend or family vacation.

Gamping combines: sharing and togetherness with laughter and simplicity. All while offering a more economical way to camp, our listings are half as expensive as traditional camping resources.

Gamping also encourages the discovery and enjoyment of outdoor sports (surfing, sailing, hiking, etc...) with numerous different terrains available perfect for any outdoor enthusiast.

Our mission is to create a strong community around the sharing, discovery and love of wide-open spaces. We believe that travel and new encounters aide in the awareness of the outside world for future generations.

A few words about Gamping

Founded in 2014 by outdoor enthusiasts, Gamping is currently available in 42 countries. With more than 8,000 locations, Gamping has more than 25,000 Gampers and 3,000 hosts.

This model (starting 6 pounds per night per person) allows for members to enjoy spacious and private places, with safe and comfortable living spaces and more.
